Classes

Batch of objects	С
IRI	http://w3id.org/CEON/ontology/resourceODP/BatchOfObjects
Description	A batch of objects is a collection of physical objects that are of the same type, e.g. a set of items (product objects) adhering to the same product model.
Sub Class Of	Resource chas physical object op some Physical object and has physical object op only Physical object op only

Composition ^c		
IRI	http://w3id.org/CEON/ontology/resourceODP/Composition	
Description	A composition is used to represent how a whole or mixture is made up. E.g., for chemical elements composing a chemical structure, the compostion should hold information of the ratio of the composing chemical elments.
